RE: Shamrock Signs

To Whom It May Concern:

I am pleased to provide this recommendation for Shamrock Signs. The Pittsburgh Pirates have utilized the services of Shamrock Signs since PNC Park opened in 2001. They have completed numerous projects for us here in Pittsburgh, as well as during our recent renovations / construction at our Spring Training complex at Pirate City, located in Bradenton, Florida.

We find their work to be very professional and completed in a first-class manner with regards to safety and staying within our budget. Some of this work included a very tight deadline for completion and installation and their turnaround time was exceptional.

I am confident in recommending Shamrock Signs for your signage needs.

Sincerely,

Chris A. Hunter
Senior Director, Ballpark Operations
